

After 25 years, George Highfill returns with a classic country album dedicated to our nation's truck drivers.

Goerge Arlis Highfill's new country album, "Thank a Trucker", will be released worldwide on Aug 22, 2023.

Steven David Austin is a musician and music critic for *Roots Underground Music*. Here are a few quotes from his well-spoken review:

"George Highfill may not have the same name recognition as, say, George Strait, but he's definitely punching in the same weight class when it comes to delivering a country song."

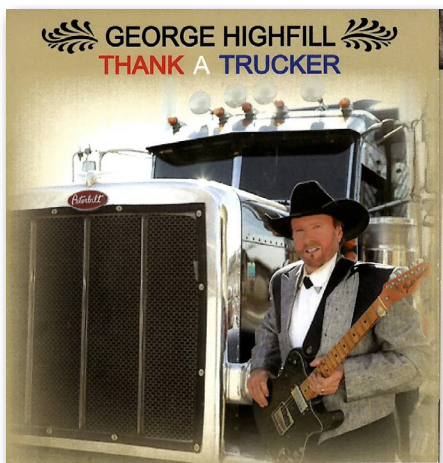

"The title track, "Thank a Trucker," following in the footsteps of Dave Dudley and Red Simpson, pays homage to the hardworking individuals..."

"If the 11 songs on "Thank a Trucker" don't give you a Pavlovian craving for a cold beer and a dance floor, you might want to check your pulse because you just might be dead."

"... a must-listen for anyone who appreciates the beauty and power of real country music."

Bobby Dale Speer of yaGO.com says:

"Truckers, what a great theme for an album. George Highfill uses his own style of real country music, and masterfully pulls it off."
